

SHORT COURSE

Generative AI: Prompt Engineering Learn How ChatGPT Increases Productivity

Skills-based virtual workshop

October 18, 2023
9am - 12pm PT
Online | \$125

Excelling at the skill of prompt engineering has become critical in the use of generative AI tools.

Learn why a well-crafted prompt can lead to getting an initial output that is 80-90% of what is needed, becoming an incredible benefit in terms of time, cost, and productivity.
